

Dashboard & Safe to Spend

One number tells you what's safe to spend right now.

Bills, savings and your next payday are already counted.

It updates the second you log something.

SCREENSHOT

Brain dump & Convert to expense

Type a money thought in three seconds and it waits in your Inbox.

When you're ready, tap Convert to expense and add a category.

It becomes a real, counted expense.

SCREENSHOT

Expenses & Categories

Amount and category are all you need.

Description and date are optional.

Every category shows what you've spent and what's still left.

SCREENSHOT

Bills & Income

Every bill with its amount and due date, one-time or recurring.

Mark them paid in one tap.

Track what's coming in and when.

SCREENSHOT

Goals & Debts

Name what you're saving for and watch it fill.

Every debt in one place, with how much is already paid off.
